Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

I use my phone only to call locally when I am not at home. I do not make a lot of calls with my cell phone. Most are personal calls between my wife and I. I also got it for safety reasons so if I am ever stuck in traffic or in an accident I am able to communicate. I have NEVER used my cell phone for interstate calls and do not feel I should be penalized for something I do not use.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.
